Council Accepts Agreement.

Hydro-Electric By-law Given First Reading.

The agreement submitted by the Calgary Power Co. for consideration by the Town Council of Didsbury, has after some deliberation and discussion been definitely accepted. This step was taken at a meeting of the Council held on Monday night, when Mayor Chambers, with Councillors Berscht, Edwards, Tighe, Barrett, and Secretary Austin, took up with the representatives of the company and discussed one or two points in the agreement that were not quite clear.

As will be remembered, the company's offer was one of \$8,000 for the distribution system, or \$9,000 to include building and plant.

The Council now thought it advisable to close with the company for the purchase of the distribution lines alone, leaving the plant and building to be disposed of by the town as it thought fit.

Mr. Robertson, of the Power Co., said he believed they should be able to dispose of the plant for \$2,500.

The agreement was then read for the first time, after which it is understood it will be sent to the Utility Commissioners for approval. Upon its return from Edmonton it will, after publication, be submitted to the ratepayers.

A query put to the company's officials relative to porch lights elicited the fact that these, under the agreement, would be served through the meter. The cost, however, Mr. Robertson stated, would be nominal, and based on an average number of hours now in use would cost about 30c a month. He pointed out, however, that the street lights would be two and a half times more powerful than at present, and consequently porch lights may not be found to be as necessary as they are now.

URGE FIRE PROTECTION BY THRESHERMEN.

Attention of farmers and threshermen, especially those operating steam engines, is now being called to the provisions of the Prairie Fires Act which affect them, by Benj. Lawton, Chief Fire Inspector for the Province of Alberta. Mr. Lawton points out that in order to prevent the risk of serious conflagrations no engine shall be placed within thirty feet of any building or stack and that a metal pan of adequate size filled with water shall be placed under the engine as a receptacle for cinders and ashes.

All cinders and ashes shall be thoroughly extinguished before the engine is removed from any place where it has been in operation and a barrel of water and two buckets shall be placed conveniently to any stack of combustible material near the engine. A spark arrester in good repair shall be used and shall not be opened while the engine is in operation.

It is hoped that closer observance of these regulations will reduce the fire loss which occurs annually from this source.

THANKSGIVING DAY NOV. 8th

Monday, November 7th, will be observed as Armistice Day and Thanksgiving Day throughout Canada. A proclamation to this effect appears in the current issue of the Canada Gazette.

A BOUNTIFUL CROP

Establishing what is believed to be a world record, J. H. Hoover, of Battleford, Saskatchewan, gathered a total of 171 potatoes from one hill. Seeing so many forthcoming, Mr. Hoover called some of his neighbors to witness the event and to verify the number.

WORLD HAPPENINGS BRIEFLY TOLD

A statement issued by the Commonwealth statistician shows the population of Australia to be more than 6,000,000, as compared with 2,250,000 in 1881.

The next regular conference of the International Wheat Pool will be held in Regina on June 6 to 8, 1928. It was decided by the committee of arrangements in Minneapolis.

Permission to give religious instruction to students of the provincial normal school outside of lecture hours is being sought from the Department of Education of Alberta by various religious bodies in Calgary.

Monday, November 7, will be observed as Armistice Day and Thanksgiving Day throughout Canada. A proclamation to this effect appears in the current issue of the Canada Gazette.

Col. J. G. Rattray, Winnipeg, Man., former head of the Manitoba Provincial Police, has been appointed head of the Soldiers' Settlement Board, filling the vacancy caused by the resignation of Major J. Barnett.

Towed several hundred feet under water clinging to an anchor, and then struck on the head by swinging gear as he was finally being pulled aboard his ship, E. K. Kapper, second mate of the halibut steamer New England, still survived.

For the first time in the history of the Upper Great Lakes, corn from the Argentine is passing through Owen Sound's grain elevator for distribution to Western Ontario. Forty thousand bushels have arrived from Montreal. The low price of the South American grain in comparison with United States produce was the cause of its large sale.

An Everyday Story

—Evans Studio

Francis Henry Cook

London, Ont.—"I was in a general run-down state of health. I had indigestion and my stomach was weak and so sore I could not bear to touch it. I got where I did not have any health at all, was not able to follow my usual line of work. I saw where Dr. Pierce's Golden Medical Discovery was recommended for stomach trouble so I decided to try it and it relieved me of my indigestion and weak stomach, also the abdominal distress and built me up in health. I can highly recommend the 'Golden Medical Discovery' to anyone who suffers as I did. It is excellent!"—Francis Henry Cook, 471 Elizabeth St.

Conditions Have Not Changed

Airmen Were Warned 66 Years Ago To Be Wary Of Ocean Flight

The difficulties in the path of a westward flight from Europe to the United States were emphasized 66 years ago by Professor Joseph Henry, famous physicist and first secretary of the Smithsonian Institute, in a letter to Thaddeus S. C. Lowe, inventor and aeronautical engineer.

A copy of that letter has just been unearthed in the archives of the Smithsonian Institute. What Professor Henry said in 1861 relative to trans-Atlantic wind conditions is regarded by meteorologists and aviation experts here as having a pointed bearing on some of the conditions faced in recent attempts to fly between Europe and America.

Lowe at that time was occupied with a scheme to fly from America to Europe in a balloon—the largest which had ever been built. Not only did he spend much money on the venture but he had the support of eminent Philadelphians including George W. Childs, John C. Cresson, J. B. Lippincott, William Hamilton and others who contributed several thousand dollars to further Lowe's efforts to demonstrate the feasibility of trans-Atlantic air navigation.

In December, 1860, sixteen eminent Philadelphians, including those named, petitioned the Smithsonian regents to furnish him aid and advice. The regents decided they could not make an appropriation from the Smithsonian fund for the Lowe venture but directed Professor Henry to give Lowe any advice he might "deem fit as to his experiments."

Professor Henry told Lowe that a balloon of sufficient size, properly constructed so as to maintain high elevation for sufficient length of time, would be wafted across the Atlantic, because between 30 and 60 degrees north latitude, the prevailing wind currents were from the United States toward Europe, but he advised Lowe not to try the experiment over the ocean first.

Professor Henry said that the prevalent wind was westerly all the way around the world, and that packet ships in the sixties from New York to Great Britain "occupy nearly double the time in returning that they do in going."

The better the quality of the tea you use the more important it is that the container should be the very best. By careful tests it has been proven that Aluminum is the best container yet found for tea—and Red Rose Tea is packed only in Aluminum—the finest package ever used for tea.

Ex-Kaiser Predicts

More Terrible War

Still Asserts He Could Show World the Way To Peace

Former Kaiser Wilhelm foresees another war in 1937, he told a correspondent of the Copenhagen "Dagens Nyheder" in an interview in which he asserted he could show the world the road to peace.

Wilhelm evidently has slight regard for the League of Nations, which he says is either blind or blindfolded. The League delegates, he compares with children riding wild horses—they might be thrown off the next moment.

"I am even certain that many of those powers talking about disarmament do so in order to inspire greater confidence, thus disguising their purposes," said the former Emperor. "According to my opinion, we shall go through another and more awful war at the latest in 1937, a war which will last only a few days and possibly only a few hours."

"In the same moment that war is proclaimed giant fleets of airplanes, airships and U-boats will be informed by wireless. Merchantmen will be destroyed immediately and a nation unprepared for it will be exterminated within forty-eight hours. On land and sea new and pernicious gas and explosives unknown in Germany will be employed and annihilate the weaker nations within a moment."

The former Kaiser maintains that he is surrounded by spies with orders to prevent him from "endangering the world," and regrets being unable to return as a sovereign to teach the world how permanent peace might be secured.

"But as things now are there will always be wars," Wilhelm concluded. "I cold show the road to peace, but the world prefers regarding me as a scapegoat to consulting me as an adviser."

Opening To Be Delayed

Saskatchewan Legislature Will Open Early In the New Year

The session of the Saskatchewan Legislature will not be held before but as soon after the New Year as possible. A statement to this effect was made by Premier J. G. Gardiner.

The fact that the season is so late and that there is a conference to be held of provincial prime ministers in Ottawa in November are understood to be the reasons for deciding not to open the Legislature before the New Year.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

The lowest temperature ever recorded in the civilized world was at Verkhoyansk, Siberia, in 1885, when the thermometer touched 50.3 degrees below zero.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Lots of people seem to go to church for the purpose of picking flaws in the sermon.

SUNDAY SCHOOL LESSON

OCTOBER 9

ELIJAH HEARS GOD'S VOICE

Golden Text: "Wait for Jehovah; be strong and let thy heart take courage."—Psalm 27:14.

Lesson: 1 Kings 19.

Devotional Reading: Psalm 57:1-5.

Explanations and Comments

1. The Despondent Prophet, verses 9, 10.—Elijah's reaction after his great exaltation was most natural, as every one must realize from his own experience. The ebb follows the high tide; depression succeeds exaltation. The fire died down within Elijah's soul, the situation in Israel seeming hopeless. He sought a cave on Mount Horeb, and there was made aware of God's "listening ear and sympathizing heart." There is nothing unreal in his meeting there with God, for "the prophet's own soul, inspired by the God within him, shaped it in his imagination." While meditating there he was brought to face the question of his own motive in withdrawing to the wilderness: "What does thou here, Elijah?" Should he answer that he had run away from Jezebel? That he was utterly discouraged, and had perhaps purposed giving up his work on the mount which he thought of as especially "the mount of God?"

"The first step in waiting upon God is always self-examination, the uncovering of our inmost heart, the laying ourselves naked before God's eyes. His Spirit cannot breathe itself into us while we are preoccupied with motives of our own. The soul must first be swept clear by confession. What doest thou hear, Elijah? Examine yourself; review your life; face the facts, facts without and facts within; know yourself; and then when all subterfuge, all subtle hypocrisy, all self-delusion is done away, the ear may at length be open to hear the voice, not of your own will, but of God's."

Elijah could honestly answer that he had been very jealous for Jehovah, the God of hosts. Our words jealous and zeal are of kindred origin, and may be traced back to the Greek word which means boiling. To be jealous for some one is to be burning with zeal for that one's interests. Elijah's whole life was marked by his zeal for God. The necessity for his zeal lay in the fact which is next related, that the children of Israel had forsaken God's covenant, had thrown down his altars and slain his prophets with the sword. He thought that all hope of reformation of the people was lost, for the prophets were the only ones who could bring about a change for the better. "And I, even I only, am left," he wailed; "among the faithless, faithful only I am," as Milton puts it. Moreover, his life, the life of the only living prophet, was in danger.

A Household Medicine.

They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Has Fairly Warm Climate

Temperature At Equator Of Mars Over Sixty Degrees

Not many years ago it was thought that the temperature of Mars was too low to support life. But by an ingenious device for measuring the temperature of the planet, it has been found that even in the Polar regions the temperature rises to well over freezing point. The temperature at the equator of Mars is almost that of a clear sunny spring day on earth in the latitude of New York, or between 60 and 70 degrees Fahrenheit.

Photographs taken in infra-red, yellow, and ultra-violet light seem to show that the planet has an atmosphere of considerable depth, though much rarer than that of the earth. Other observations show that the density of the surface atmosphere of Mars cannot be greater than it is eleven miles above the surface of our own planet.

While Mars can be observed to advantage by the telescope only in alternate years, and then for only a few months at a time, Jupiter can be observed all the year round, always presenting an interesting subject of study, except for a few weeks when it is too near the sun to be seen to advantage.

Jupiter has many curious light and dark belts that lie parallel to its equator and seem to be formed of denser vapours than their surroundings. The planet is spinning round on its axis once every 9 hours 50 minutes at its equator and every 9 hours 55 minutes in its higher latitudes. Objects at the equator are carried round at the rate of 30,000 miles an hour, or eight miles a second compared with 1,660 miles an hour, at the earth's equator.

Duty Of Motor Drivers

Whole Thought Should Be Safety For Themselves and Others

The main principle which should be insistently hammered into the heads of all drivers of motor-vehicles is that, besides obedience to the golden rule of "safety first," the obligation which they must fulfil is constant thought for others. It is their duty to the community to drive always in such a way that both in approaching corners and in overtaking other vehicles safety for themselves and other users of the road can be secured with the least possible use both of the horn and the brake. In other words, wherever other vehicles or foot passengers are in question, their pace should be so regulated and so fully under their command that they can in case of need easily bring their car to a standstill. Between safe driving and noiseless driving there is an intimate connection, and it is chiefly forgetfulness or ignorance of this fact that makes so many of those who use the roads a menace and a nuisance to their neighbors.

Fall Colds

Attack them at the beginning Heat and inhale Minard's. Rub on throat and chest.

When Making Repairs

If called upon to change a tire or make a minor car repair while on the highway, one should remember to pull entirely off the road. If this is not possible at the place where the difficulty occurs, it is the part of wisdom to drive on for a short distance to find a better spot. Working on the left side of the car, on a well travelled highway is exceptionally dangerous even in the daytime. At night, it may amount to foolhardiness.

Hydro-Electric Power In Canada

By the end of the year 1926 Canada's hydraulic power installation reached a total of 4,556,266 horsepower of which 265,838 horse-power was installed during that year.

A liquid which renders wood fire-proof has been patented by a Norwegian.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER VIII.—Continued

Mr. Wymuth who backed up his wife's petitions by hollow groans and exclamations of "Lord, save!" and "God, have mercy!" was called to the telephone just at the moment that she was warning up to the real business of her report.

"O Lord, send down Thy chastening fire to convict and convert!"

"Amen! Hallelujah!" shouted the girls, knowing what was expected of them.

Helmi, who was kneeling just behind Mrs. Wymuth, caught a glimpse of keys in the pocket of her black eateen apron. A sudden impulse prompting her, she cautiously abstracted the keys and crept quietly backward from the room. In the general excitement of the evening devotions she was not missed.

Helmi went at once to the retreat, found the key which fitted, and then to the desk. She had been trusted to sweep and dust this hallowed spot, and so knew that one secret drawer was always kept locked. It yielded to the right key, disclosing a pile of letters. Helmi found three for herself and one for Minnie. She hurriedly replaced the others, shoved her own and Minnie's into the front of her dress, and made the perilous journey down the long hall. If she had only told Minnie to keep on praying. Her heels seemed to suck at the linoleum, her knees cracked, the house seemed to scream with silence. Mr. Wymuth was still at the phone. She reached the door. They were still on their knees, Mrs. Wymuth keeping up her supplications to the throne of grace. Some of the girls were crying. Helmi was on her knees in a moment, beside them, and into her grateful heart there came an honest gift of thanksgiving. Mrs. Wymuth, hearing it, redoubled her efforts—she would get Helmi yet.

"Oh, Lord, give us souls for our life—unlock the stubborn door—break down the bars of silence!—O,

DRAGGING-DOWN PAINS RELIEVED

Woman Suffered Nearly a Year.
Lydia E. Pinkham's Vegetable Compound Brought Her Health

Moose Jaw, Sask.—"I am going to try to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very badly with dragging-down pains and inflammation, also pains in my right side over my hip and down my whole side into my leg. I had it nearly a year when I went to a doctor and he said I would have to have an operation. But my mother said to take Lydia E. Pinkham's Vegetable Compound as it saved her life years before. I took two bottles and I found I was better, so I kept on taking it and also used Lydia E. Pinkham's Sanative Wash. I have had two more children since then and am perfectly well. I used to have to lie down two or three times a day, and now I do all my housework without trouble. I always keep the Vegetable Compound in the house as I find a dose now and then helps me. I am willing for you to use this letter any way you see fit and I will answer letters. If I can help any other woman I'd be only too glad to try."—Mrs. ESTHER HOUGHTON, 414 Morse Square, Moose Jaw, Saskatchewan.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all women.

For sale by druggists everywhere. ©

W. N. U. 1701

Lord, we are waiting, waiting, waiting."

Helmi swayed nearer to her and gently replaced the keys in Mrs. Wymuth's pocket, falling back on her knees in a rapture of thanksgiving and relief. And in the general responsive outcries of the girls Helmi, too, joined. But the words of her song were the words of one of the yells of the

"Merry Maids!"

"Skin a mir lunk! Skin a mir lunk! Skin a mir lunk doo! I love you!"

Fortunately for Helmi, Mrs. Wymuth attributed her strange words to her foreign birth, and in her joy at Helmi's apparent surrender she did not inquire closely into the matter. Helmi's silence was broken! Now for the full confession—the stubborn will had yielded at last.

The other girls were sent into the common room, where they began their dreary task of making baby clothes in shamed silence. Although the Wymuths had been at the home only a short time they had killed every spark of happiness in it. Mrs. Avery had imbued the girls with a certain gaiety and enthusiasm over their sewing which had lifted it out of all sadness. A baby was to her a sacred gift; it must be made well; and baby clothes must be beautiful. The girls loved the two hours after supper when the little garments were fashioned. Indeed, the beautiful things that Mrs. Avery had planned and the girls had made were used against her by members of the Board, who claimed that she encouraged the girls to forget that they were sinners, and had them actually looking forward to the coming of their babies, forgetting that they were children of shame.

The Wymuths let the girls forget nothing, and on this night they were silent and sad, as bitterly set down and ashamed, as any Christian Board could wish.

For an hour Mr. and Mrs. Wymuth struggled with Helmi. They prayed, coaxed, threatened. She must tell! Mr. Wymuth at last shook her roughly—he had often said this was the best way to deal with foreigners. They had to be mastered.

Something broke in Helmi then. The nervous excitement of the evening—her three precious letters that she had not yet opened—her anxiety for Minnie, and eagerness to know what her letter contained of good or evil—something broke in Helmi's heart with sudden fury. It was that flashing temper for which her countrymen are noted. One moment she had been perfectly calm, tight-lipped, composed, mistress of herself, determined to bear all things; the next moment she was a flaming fury, with murder in her eyes. She hurled Mr. Wymuth from her with a swinging blow that sent him crashing into the china cabinet, and the words she said were words she had not known that she knew. In the hotel in Saint Paul she had heard the clerk say them to a persistent peddler at the door, "You go to Hell!"

Mrs. Wymuth screamed in genuine, honest fright.

CHAPTER IX.

"Girls! Oh, girls!"

Mrs. Wymuth's voice was fraught with terror and brought the girls from the common room in a panic.

"Oh, you wicked, wicked girl, Helmi! You have killed the best man the sun ever shone on! He is bleeding to

death, his life oozing away!" Her voice, which always had a rusty whine, now fairly croaked.

The glass in the door of the cabinet had given Mr. Wymuth a cut in the cheek, and the blood ran over his pale face. Helmi, wide eyed and rigid, stood as if rooted to the floor.

"Murder! murder! murder!" Mrs. Wymuth's voice was rumbling now like distant thunder. "Oh, speak to me, Mr. Wymuth." Even in her excitement she remembered that it would not do to call him by his first name before the girls—in life or in death, discipline must be preserved. "Speak, oh speak, pale lips!"

The pale lips spoke. Mr. Wymuth's thin veneer had been cracked by Helmi's blow. "Shut up, you fool, and get me something to wipe off the blood," he said.

"He raves," cried his wife dramatically. "Go, girls, go! When he wakes—if he ever does wake in this life—he must see no face but mine bending over him. Go!"

The girls drifted noiselessly up the stairs, deeply awed by what had happened. Helmi suddenly remembered the letters she had concealed, and ran upstairs to find Minnie, who had gone to bed early. When Helmi reached the dormitory she found herself the centre of an admiring throng. "Gosh, I'm glad you patted him!" cried one. "Helmi, ain't you the best girl," said another.

"Serves him right, the big bum," was Rose Lamb's contribution. "I wish I had your nerve, Helmi. He walloped me for fair last week, and I was afraid to hit back. But Gee! he hadn't a look in with our husky Helmi!"

Minnie had awakened with the noise and was sitting up in bed, very pale and frightened, when the girls swarmed into the room. Helmi put the letter in her hand.

The first flush of congratulations gave place to dismal forebodings. "Gee, Helmi, I'm glad it was you and not me that walloped him, I'm scared they'll halt kill you." This was from Maude, a repeater who seldom spoke. "It's the Board I am scared of. There's a whole room full of them, and we get dressed the night they come—and they ask us questions about are we happy, and we say 'We are very happy here and will try and repay all the kindness you have shown us.'"

"That's not a Board," said a young girl who had been brought in because she and her stepmother could not agree; "Board is what you pay when you eat."

"Shut up, silly! Maude's right. Ain't she been here twice? I guess she would know. I'm afraid they'll kill Helmi, maybe, or do something bad—expel her, maybe."

"That ain't the worst," Rose Lamb led the discussion now. "You can't get expelled from this place. I guess if any one co-ol'ta, it would have been me. This is a jail, really; only it's a jail where they're going to convert you or bust. It's best to get converted first thing. I've been converted lots of times; every time I run away I get converted all over again. Gee! I'm getting fed up with these Wymuths! Ain't this a swell time we're havin' tonight! I'm all for Helmi—she's as good as a show." Rose began to sing.

(To Be Continued.)

Local Possibilities

Home Neighborhood Usually Offers Better Chances Than Elsewhere

Many folks will start off to some far distant city or state to seek their fortunes when there are equally good or better chances in the home neighborhood. The chance to make good in one's home location is usually better, since people understand local conditions more thoroughly. They also have friends in their home locality who will be of assistance in developing any kind of business. There are opportunities for business everywhere and they are just as good as elsewhere. The people who render superior service and who advertise what they can do will always attract attention and go ahead.

Pearls From Fish Scales

A New York company, one of the largest manufacturers of imitation pearl from fish scales, is erecting a plant at Nanaimo, B.C., to manufacture from the fish scales of the British Columbia catch, and production is set for November.

When love sets the task the laborer never thinks of demanding shorter hours.

Man's "First Alphabet" Denounced As Fake

French Experts Find "Glozel Writings" Are Not Authentic

At a meeting in Paris of the Academy of Inscription the "Glozel Writings" discovered three years ago and believed to be man's "first alphabet" were denounced as fakes. The denunciation was made by Camille Jullian, an authority on the Gallo-Roman era, and Rene Dussand, the academicien appointed to make a special investigation.

The famous writings, which were brought to light at Glozel, near Vichy, were declared by the finders to be the work of Neolithic man, thus presenting the contention that the writing originated hundreds of centuries before the period generally accepted by scientists.

For some time the authenticity of the inscription was not questioned. There was merely disagreement as to its age. MM. Jullian and Dussand now declare they found many good reasons to suspect the "discoveries," citing as examples the objects had been recently disturbed, the lack of human bones, pictures of reindeer, which did not exist in France, and finally that a fee of four francs was being charged for admission to the property where the "find" was made.

Fares Change With Weather

Trans-Atlantic Passenger Rates To Be Lowered During Dull Season

Trans-Atlantic passenger fares in the future will change with the seasons.

Cheaper rates for steamship passage are to prevail during the fall and spring as well as winter. This action of steamship officials has been taken to stimulate business in what are known as the off-seasons.

By the new arrangement, agreed to by all the principal trans-Atlantic companies, there will be three different tariffs, one for summer when travel is at its height, one for the intermediate seasons, the late fall and early spring, and another for mid-winter when travel is lightest.

The reductions on the more luxurious liners, such as the Majestic, Berengeria and Leviathan. In some instances amount to ten to fifteen per cent. from the summer tariff.

Little Helps For This Week

The fruit of the Spirit is love, joy, Galatians v. 22.

So take joy home, And make a place in thy great heart for her, And give her time to grow, and cherish her. Then will she come, and oft will say to thee: When thou art working in the furrows—say, Or wedding in the sacred hour of dawn. It is a comely fashion to be glad, Joy is the grace we say to God. —Jean Ingelow.

All God-like things are joyous, they have touched God, and so they carry with them an irresistible gladness everywhere. —Frederick W. Faber.

Angora Rabbit Farms

Reports state that Angora rabbit farming is being carried on to a very large extent by the people of France. Many thousands of Angora rabbit farms are in operation throughout the country and these depend largely on the revenue from the wool taken from the Angora rabbit which brings as much as \$8 a pound for the best grade. In one year, Angora rabbit wool produced in France amounted to \$190,000.

The tourists were being shown the Acropolis at Athens, when one of them, after an enthusiastic "Gee, I'll say it's great!" appeared to miss something.

"Say," she said, "where are the four horsemen, anyway?"

Educating Indian Citizens

The expenditure by the Government of Canada on Indian education in the fiscal year 1926 was \$1,918,000. In addition to this certain bands of Indians, whose funds were sufficient to meet the expenditure, contributed \$67,000 for school purposes.

THIN, WATERY BLOOD ALWAYS DANGEROUS

If Not Corrected Serious Results Sure To Follow

In no trouble is delay or neglect more dangerous than in anemia—thin, watery blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before the trouble is recognized.

But taken in time the tonic treatment through the use of Dr. Williams' Pink Pills, so enriches the blood that good health and strength is speedily regained. The correction of anemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. Miss Teresa Heafey, Dunraven, Que., is one of the many anemic sufferers who has found new health through the use of this medicine. She says:—"I cannot express too warmly my thanks for what Dr. Williams' Pink Pills have done for me. I was suffering from a badly run-down condition. I was very nervous, had little desire for food, and would feel tired out at the least exertion. In this condition I began taking Dr. Williams' Pink Pills, and before using them very long found my health gradually improving, and under their continued use was completely restored. For this reason I earnestly advise all weak girls to take these pills, feeling sure that they will do for others what they did for me."

Send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., and they will mail you free a useful little book on "Building Up the Blood." The pills can be obtained through any druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Perhaps the only way to get around the problem of what is the plural of "gallolus" is to grow asters.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Expeller.

The average man thinks he isn't even with the world until he owes others as much as they owe him.

Minard's Liniment for Toothache.

So often one reads a best seller and is saddened to think there are no many people capable of liking it.

FORMER DIDSBURY POSTMASTER CELEBRATES

FORMER DIDSBURY POSTMASTER CELEBRATES

Mr. and Mrs. O. S. Shantz, of Castor, celebrated the 50th anniversary of their wedding on Sunday, September 25th.

Mr. Shantz was born in Waterloo county, Ontario, on May 13th, 1854. He was married to Miss Susannah Elizabeth Erb on December 25th, 1877.

He farmed at Wilmot, Ontario, until 1887, when he entered the ministry of the Mennonite Brethren in Christ Church, and saw service in Wilmot, Vialland and Stayner, Ont. He went back to the farm on account of his health and later entered on evangelistic work until 1901, when he moved to Didsbury, where he was postmaster; in 1914 he moved to Calgary, and in 1919 to Castor. He was presiding elder in Alberta for two years, and was pastor of the Castor church in 1917. He is now residing near Castor.

Guests at the wedding anniversary sat down to a sumptuous dinner, after which Rev. Traub gave an address to which Mr. Shantz replied. Games and other social means took place after dinner. The guests traveled from Ontario and Alberta to take part.

Mr. and Mrs. Shantz had two sons and three daughters present and 14 grandchildren.

TAKE PRECAUTIONS TO PREVENT FIRES,

Heavy Growth This Year Increases Danger from Flames

Anticipating danger from large fires as a result of the heavy forest and prairie growth this year, the provincial department of agriculture has launched a campaign urging care in the prevention of fires. Large posters printed with red ink have been prepared and will be placed in conspicuous places throughout the province warning people that violations of the Prairie Forest Act are punishable, in addition to liability to civil action, with fines up to \$200 and costs.

Attention is particularly drawn to the fact that it is unlawful to kindle a fire and permit it to run at large; to kindle or be party to kindling a fire for camping or branding purposes and leave it unextinguished; to kindle a fire for the purpose of clearing.

Making the Canadian Dollar Go Farther than Ever Before

IN the purchase of the common commodities of life, the Canadian dollar has decreased in value during the past decade.

But, in the purchase of an automobile, the dollar is now worth one hundred to two hundred per cent more than it was seven to ten years ago—is worth more, in fact, than ever before in history.

While constantly raising the quality standard of its products, General Motors of Canada has

increased the purchasing power of the Canadian car-buyer's dollar.

... by the economies of volume purchasing and production,

... by the close co-ordination of resources and facilities,

... by improved labor- and time-saving methods of manufacture,

... by sharing with Canada the savings effected by increased production.

In quality and in value, the Canadian dollar now goes farther than ever before in the purchase of a General Motors car.

Vinol Helps Nervous, Run-down Man

"Before taking Vinol, I was run-down, nervous and irritable. Now, I feel like another person."—R. McCoy. Vinol is a simple, strengthening iron and cod liver compound in us for over 25 years for sickly, nervous women, run-down men and weak children. The very FIRST week you take Vinol, you begin to feel stronger, eat and sleep better. (H. W. Chambers, Druggist.)

TAKE PRECAUTIONS

ing land or to burn stubble or brush unless the land on which the fire is started is properly fire-guarded and watched during the whole period of its continuance. Before May 1, a fire-guard must be not less than 10 feet in width and after that date it must not be less than 20 feet in width. It is also unlawful for anyone to refuse without lawful excuse to proceed to a fire when ordered to do so by a fire guardian.

Those Eligible to Fight Fire

In connection with the last clause, all male persons more than 16 years of age and under 65, other than postmasters, physicians, railway station agents, telegraph operators, conductors, engineers, brakemen, firemen or trainmen while on duty, residing within 10 miles of a prairie fire or 25 miles of a forest fire, shall proceed with all reasonable dispatch to any fire when ordered to do so by a fire warden, and they shall take with them horses, implements and any available fire extinguishing appli-

A MASTERPIECE.

A young entrance pupil writing on the June examinations in composition at a certain Ontario centre contributed the following choice bit of literature. Taking an editor for his subject, he wrote:

"An editor is a man who edits a paper. Some editors use a pen to write with, but some use scissors.

Lots of editors get news from scribes. Some editors are Pharisees. Nearly all editors lie. An editor that can't lie ain't no good for an editor. An editor should like gossip. Women would make great editors only editors must keep secrets. An editor never has any money. Once an editor got ten cents and it made him crazy. An

editor never wants any pay for his paper and the people never think of paying an editor. When an editor gets a free ticket he has to give a dollar's worth of free advertising in advance. More people know how to edit a paper better than the editors do. If the editor asks for his pay for his paper the fellow gets mad, so it is cheaper to borrow someone else's. Some editors are not afraid of men. I once knew a woman that frightened an editor and made him crawl under a table."

(This boy is said to have passed with honors).—Exchange.

Our Progressive Farmers.

OUR PROGRESSIVE FARMERS

As one drives round the country he cannot help but be struck with the evident progress that is being maintained by our farmers. New houses, splendid outbuildings, increased acreage, all tend to denote prosperity and a determination of the farmer to improve his holdings. The heavy growth this year and correspondingly big yields has taxed the capacity of the average farmer to the limit, and in many cases this has necessitated new buildings. Among those recently erected, one notices to the south of Didsbury a large barn has been put up by Alf Buckler, one of our old-timers and a resident of the district for nearly 30 years. This building now being finished by him is a structure measuring 40 x 32 feet. It has a lean-to having a width of 16 feet. The main barn has five double stalls on each side, with a loft overhead large enough to accommodate 40 tons of feed. The lean-to will hold thirteen head of cattle.

The whole structure has a concrete floor throughout, and the various stalls, both for horses and cattle, are each furnished with a feeding box

connecting with the lift.

The roof is of a design that is being largely copied throughout the west, generally known as a gothic or circular roof. It is claimed that this style offers less resistance to the wind and the absence of bracing inside furnishes greater space for feed.

The building is being erected for Mr. Buckler by W. Pitt, and the painting is being done by H. D. Booker, both of Didsbury.

Details of the British Government's exhibit at the World's Poultry Congress, to be held at Ottawa, July 27th to August 4th next, have been received by the Congress committee. Heading the list of exhibitors from Great Britain is His Majesty the King, who has signified his intention of exhibiting pigeons, while H.R.H. the Prince of Wales is sending along some chickens from his famous farm in Cornwall. The British exhibit will consist of models of the poultry farms of Lord Dewar and Tom Barron, two of the best known poultry breeders in England. Hon. Miss Florence Amherst and St. Dunstan's Hostel for the Blind, are also participating. The British representation will include many technical features. Official British delegates to the Congress are Sir Francis Floud, permanent under-secretary to the Ministry of Agriculture and Fisheries, and Percy Francis, Poultry Commissioner to the Ministry of Agriculture.

Stomach Gas Drives Man From Bed

"I had gas so bad I had to get up nights on account of the pressure on my heart. I used Adlerika and have been entirely relieved."—R. F. Krueger.

Even the FIRST spoonful of Adlerika relieves gas and often removes astonishing amount of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. H. W. Chambers.

Canadian Hunting Prospects Excellent

1. Caribou and hunter from the district of North British Columbia. 2. Bringing in a deer. 3. Calling a moose. 4. Bear about to swim a stream in the Rockies.

Canadian moose and deer hunting seasons are at hand and from reports reaching the tourist department of the Canadian Pacific Railway Company there is every indication that one of the best hunting seasons ever will be experienced.

Mike Bates sends down word from his camps at Metagama, Ontario, that if the hunters don't get their deer and moose this season they will have nothing to blame but their poor shooting. He says that moose are very plentiful and expects it to be a great year in every way. From Schreiber, Ontario, where John Handel, outfitter, has been operating, the reports are just as reassuring. Handel says that the game has increased in the Superior Game Preserve lying south of the C. P. R. line and a very considerable area and the surplus has crossed to the north of the tracks offering good hunting. He says that caribou are roaming the woods in increased numbers. As the C. P. R. line is the north boundary of the game preserve, hunters don't have to go very far for their quarry.

The news from Sheehan's Camp at Lake Penage, southwest of Sudbury, is also music to the hunter's ears. Deer here are reported to be very plentiful. Reports turned in by guides of Ogilvie Bros. Camps on the Tobique River, N.B., are to the effect that deer though very plentiful last season, show signs of much greater increase. The same word comes from A. D. Thomas at South Milford, in the Kedgemaquoog district.

The hunting facilities of the Yukon and northern British Columbia districts are worthy of special men-

tion. According to sportsmen who have hunted in all parts of the world there are no finer big game fields anywhere than those embraced by the Klusne Lake and White River and the McMillan River districts of the Yukon territory. In addition to the remarkable inducements offered the hunter these districts have an impelling attraction for the tourist, man or woman, who delights in exploring the wonders and beauties of Nature in wild and primitive country.

The big game inhabitants, according to locality, comprise White sheep, mountain goat, Osborn caribou, moose and three varieties of bear—grizzly, brown and black. Some magnificent trophies of all these species have been obtained in the past.

The Yukon game country is so vast in its extent that a great number of hunting parties can be out in the same season without ever being seen by one another.

The Klusne Lake and White River district is reached from the East via the Canadian Pacific Railway through the world renowned scenery of the Canadian Rockies to Vancouver, thence by Canadian Pacific "Princess" steamer for an enchanting run of one thousand miles to Skagway, Alaska, where change is made and journey continued by train over the White Pass and Yukon route to White Horse, Y.T., a distance of 110 miles. Hunting grounds are situated about 154 miles from White Horse, the trip usually being made by automobile to Champagne Landing (65 miles) the first day; team the second day on to Bear Creek (55 miles) and team the third day to Klusne Lake (24 miles) where the actual hunting commences.

The Conference Of Premiers

At the invitation of the Dominion Government there will assemble at Ottawa early in November a conference of representatives of the Federal Government and of all the Provincial Governments at which consideration will be given to the many questions affecting the interests and rights of the Dominion and its several provinces. This conference will be attended by the Dominion Prime Minister and some of his colleagues and by all nine Provincial Premiers who in each case will be accompanied by cabinet colleagues.

The object of this round table conference is, of course, to discuss problems common to all and endeavor to find satisfactory solutions, to adjust any differences now existing, to try and harmonize conflicting laws, eliminate overlapping in administration, and, in general, to study the financial requirements of the several governmental units. In a word, it is co-operation for the good of all Canada. Its importance, therefore, does not call for any special emphasis.

This conference of Canadian Premiers is designed to accomplish for Canada something similar to what the recent Imperial Conference at London accomplished for the Empire as a whole. For example, the exact status of the Dominion and its several provinces in regard to certain subjects requires to be clarified. There is now conflict of authority in matters of Company law, incorporation and regulation, including licensing of companies. In insurance matters particularly there is more or less confusion.

Again, most of the provinces are anxious to exercise strict supervision and control over the sale of stocks and bonds of companies, and several Provincial Legislatures enacted what are termed "blue sky" laws for the protection of the investing public, only to find that all companies had to do to escape Provincial jurisdiction was to become incorporated under Dominion law. The provinces desire Federal action to overcome this difficulty.

Another matter which is causing adverse comment throughout the country is the duplication of police forces, with consequent division of authority, sometimes leading to over-lapping and consequent friction; sometimes resulting in lack of co-operation. In any event, people feel there is an unnecessary waste of the taxpayers' money with Dominion, Provincial and Municipal police. The Premiers' Conference will give consideration to such problems as these.

Then there is the ever-recurring question of the Dominion subsidies paid to the provinces, and the complications resulting from the fact that some provinces have control of their natural resources while others have not. As an outcome of the Duncan Report, the Maritime provinces have been given a new financial arrangement temporarily. To this the other provinces have not raised any objection, but if a new and permanent arrangement is to be made in the interests of these provinces, then all the provinces have a vital interest in the matter.

Furthermore, it is now fairly well recognized that the financial terms originally fixed at the time of Confederation, and as altered from time to time, work out to the advantage of the Dominion and unfairly to the provinces. That is to say, increased population brings largely increased revenues to the Dominion through Customs, Excise, and other forms of taxation, but to the provinces increased population means enormously increased expenditures for education, roads, hospitals, court houses, and institutions of various kinds, while the small increase in the subsidies received from Ottawa because of such larger population is a mere bagatelle compared with such expenditures. Re-adjustment of the financial terms, therefore, becomes a necessity from time to time.

No one thing is more apt to weaken Confederation than the existence of a feeling that it is not working out quite fairly to the provinces, or that, in regard to those matters which are subject to both Dominion and Provincial jurisdiction, Federal Departments are not displaying that spirit of helpful co-operation which is essential to complete efficiency in Provincial administration. On the other hand, real unity in effort, frank recognition and understanding of each other's problems, and sympathetic consideration and action will make the Dominion united and strong.

The people of Canada will entertain high hopes that the Ottawa Conference will be as successful in its field as the Imperial Conference was in the larger arena of Empire affairs.

Penetrates Far North

University Graduate Prepares For Expedition Into Arctic Circle

Paddling 1,300 miles alone through the regions of Northwest Canada with only Indians, Hudson's Bay Company trappers, and hordes of animals to punctuate the monotony, Cornelius Osgood, 21-year-old graduate student in anthropology at the University of Chicago, spent the summer steeping himself in the lore of the North woods and learning to live the life of the Indians, preparing himself for a 14-months expedition next year into the Arctic Circle to report on the culture of the little-known Athabasca Indians. Osgood has just returned to the university to continue his studies in ethnology.

One Drop of "Putnam's" —Corns Stop Aching

Isn't it wonderful — Just a drop or two of Putnam's on any sore corn and out comes all the pain. After a few applications the corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes anymore. You can dance or walk in comfort. Be sure you use only Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere. Refuse a substitute for Putnam's—it's the best.

Aviation In Canada

No country provides a better field for air communication than Canada. The distances between the cities are great and the climate is favorable for flying. Experience shows that with suitable equipment, winter presents no insuperable obstacle to the continuous operation of air routes.

BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers, and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que., writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Losses From Smut

Smut diseases cause heavy losses wherever cereal crops are grown. In Canada careful estimates of smut losses are available only for the last few years, and these show the average annual loss to the Canadian farmer from this source as over \$12,500,000. Government departments, agricultural colleges, and technical agriculturalists are all engaged in the effort to reduce this loss.

Externally or Internally, It Is Good. —When applied externally by brisk rubbing, Dr. Thomas' Eclectic Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Antarctic Expedition

Expedition To Extreme Southern Seas Returns To England

After two years of scientific research in the extreme southern seas, Captain Robert F. Scott's old Antarctic ship, Discovery, returned to Falmouth, England, having suffered no casualties in the struggles with the ice fields.

The expedition gathered valuable information, especially about the life habits of whale. Dr. Stanley Kemp, the leading scientist aboard, told newspapermen that on the disputed matter of habit of whales, they are not monogamous. On the contrary, he declared, they have, so to speak, "a wife in every port."

The heaviest wood is Bismarckia, which runs from 72 to 82 pounds a cubic foot. Ebony is a close second, with from 69 to 83 pounds; boxwood is third, running from 59 to 72 pounds a cubic foot.

Flight Will Be Hazardous

Commander Byrd's Trip To Antarctic More Dangerous Than Any Yet Attempted

Commander Richard Byrd, who recently flew the Atlantic ocean with passengers, will undertake the most hazardous flight that has ever been made by an airman when he will attempt to reach the South Pole by aeroplane. He has already crossed the North Pole by air, but the task he has now set out to accomplish entails even greater dangers and difficulties.

For instance, he may find himself obliged to winter in the Antarctic in the event of being caught in the ice. But if all goes well, and as now planned, the flight will have been accomplished and the intrepid voyagers on their way back to civilization early in 1928.

"If all goes well" . . . These words are often on the lips of Byrd and his companions just now, for well they know, from all the data to hand, that usually all does not go well on that vast but little explored waste, which has been so vividly named "The Home of the Blizzard."

The first aeroplane to fly across this unknown huge vastness of the earth's surface will be equipped with a powerful wireless and with kite aerials that can be flown high in the air to give greater power, so that in the event of a forced landing or other untoward event the fliers will be able at once to communicate with the companions left at the base camp at Ross Bay. They will have the means ready to effect Commander Byrd's rescue.

Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute

This valuable preparation has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Fresh water can be dipped from the Atlantic Ocean for a distance of 50 or more miles off the coast of Brazil. This is due to the enormous amount of water that pours from the mouth of the Amazon.

For 100 bushels of wheat—

That's about all the trip costs, and that's why thousands of people go to the Old Country for the Holidays—an unforgettable pleasure. Are you going?

The Anchor-Donaldson Steamer "Letitia" leaves Montreal for Scotland on November 26th. The Cunarder "Ausonia" leaves Montreal November 25th for the Channel Ports.

Special Christmas sailings from Halifax for the second week in December will enable you to arrive in plenty of time for plum puddings and haggis, bagpipes and pantomimes.

Round Trip from \$155.00 up, everything included. Children half fare. Your Steamship Agent will make all arrangements.

Lawyer—"Why did you kill this man?"

Prisoner—"The gun went off accidentally. I took him for some one else! It was self-defence! I was crazy! And besides, I didn't kill him!"

"Now that you are married I suppose you will take out an insurance policy?"

"Oh no! I don't think she's going to be dangerous!"

May Secure Place

The Man With Asthma, almost longs for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

The lifetime of a good watch, experts say, is 50 years. The balance and hair-spring vibrate 157,000,000 times a year, while an equal number of ticks come from the escapement.

Relieves Sore Throat—Minard's Liniment.

Of course a man has a right to the best of everything—as long as he pays for it with honestly acquired money.

Children Cry for

**Fletcher's
CASTORIA**

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Wm. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

RURAL ROADS ARE PLANNED TO AVOID ACCIDENTS

Niagara Falls, Ont.—Delegates who attended the annual convention of the Canadian Good Roads Association meeting here apparently become imbued with the "safety first" idea, for continually throughout the discussions the speakers veered from their original topic to safety first suggestions.

H. R. Mackenzie, chief field engineer for Saskatchewan, stated that his province was planning its rural roads with the aim of making them accident proof. Mr. Mackenzie stated that the roads were being constructed 24 feet wide, and with ditches at such a gradual slant that an automobile could run into them at a fair speed and still fail to turn turtle or fall on its side.

The annual meeting of the association, held apart from the convention, did not pass without its recognition of the accident situation, several resolutions being adopted supporting the "safety first" campaign.

In touching upon the question of federal aid, the prelude to a resolution pointed out that the Dominion Government had collected upwards of \$175,000,000 in the past ten years which could be traced directly or indirectly to highways. In view of this, the association instructed its executive committee to make every reasonable effort to induce the Federal Government to grant financial assistance to the building of good roads.

The election of officers resulted as follows:

President: Hon. P. C. Black, minister of highways, Nova Scotia; first vice-president, Hon. O. L. McPherson, minister of highways, Alberta; second vice-president, Hon. W. H. Sutherland, minister of public works, British Columbia; secretary-treasurer, George A. McNamee, Montreal.

Plan Subways For Montreal

Huge Project Would Provide Subway Lines and Abolish Level Crossings

Montreal.—Initial steps have been taken, it was officially announced, by a group of local interests connected with financial houses in New York to enter into a \$200,000,000 project with the city, province, Federal Government and railway companies to abolish level crossings in Montreal, construct a grand central terminal station and construct underground tram facilities.

The work in view comprises, it was stated, the abolition of all level crossings in and entering the city either by elevating them or putting them underground. The proposition which it is stated is being made to civic, provincial and Federal Governments beside the railway heads, would provide for collaboration of all these bodies in the financial arrangements.

Completes Long Trip

British Aviator Makes Record For Long Distance Solo Flight

Capetown, South Africa.—Lieut. H. H. Bentley, instructor for the South African air force, who left Hendon, England, on September 1, in a light moth airplane for Capetown, completed his long solo flight of more than 7,000 miles.

Lieut. Bentley, who made the trip in long hops to prove the feasibility of London-Capetown air communication and to demonstrate the capabilities of a light plane on long distance flights, created what was said here to be world's record for a long distance solo flight.

The aviator, who had hoped to make the trip in 19 days, found 28 necessary for the long trip, some of it over hazardous and deserted country.

Will Endorse Proposal

Toronto.—Toronto women and probably Ontario women generally will support British Columbia's proposal to make women eligible to the Senate of Canada when the proposal is discussed at the meeting of the National Council of Women at Stratford. The Toronto local has strongly endorsed a similar resolution.

W. N. U. 1701

Gypsy Children Ask For Separate School

Pupils In Czechoslovakia Fear Those Of Other Tribes

Prague.—School children in the town of Homonna, Czechoslovakia, have struck for separate schools because of their instinctive fear that the swarthy juvenile romads beside whom they sit have cannibalistic instincts.

Striking children have been strongly supported by their parents, who declare their children are in danger of being eaten. Seeing the force of their arguments, the authorities have decided to build a separate school for Gypsy children, which, it is believed, would be the only one of its kind in the world.

The present protest grew from alleged cannibalistic orgies for which 36 gypsies are now awaiting trial. They are said to have confessed to murdering and devouring scores of persons, pleading the times were bad and they could not afford to buy ordinary meat, but that they did not see "anything wrong in eating human flesh."

Aviators Safe After Long Desert Flight

German Plane Delayed By Detour Ordered By Turks

Bagdad, Iraq.—Lieut. Otto Koennecke, pilot of the Germania, whose arrival here cleared up the mystery of his whereabouts since his take-off from Angora, Turkey, said that his delay in reaching this place had been due chiefly to the instructions given him by the Turkish authorities on leaving Angora as the route to be followed.

The German aviator, who is en route to the U.S. by way of the Orient, said that the instructions involved a wide detour, the Turkish idea being apparently to prevent foreign aviators from flying over certain areas of Turkish territory.

The aviator said that he had halted at Aleppo and then had deferred his departure for Bagdad in order to avoid flying in the hottest part of the day.

Eugene Chen Married

Reported Marriage In Moscow Of Former Nationalist Foreign Minister Of China

London.—The God of Love seems once more to have won out over the God of War in the Chinese Nationalist movement.

The Riga correspondent of the Daily Mail quotes an official Soviet despatch to the effect that Eugene Chen, former Nationalist Foreign Minister, and Mme. Sun Yat Sen, widow of the father of the Nationalist movement, were married in Moscow.

The newspaper reports the couple intend to spend their honeymoon in China by starting a new revolution, and adds that the Third Communist internationale is financing the activities of the bridal couple.

C.P.R. Earnings

Montreal.—The gross earnings of the Canadian Pacific Railway for August were \$17,258,624, an increase of \$528,460 over the gross earnings during the same month in 1926. The working expenses for the corresponding period, however, showed an increase of \$1,071,687, representing a decrease of \$443,227 in the net profits, compared with August 1926. Net profits for August 1927 were \$3,862,148.11.

Paralysis In Sweden

Stockholm.—The infantile paralysis outbreak reported in various parts of Europe has reached Sweden, cases being reported from two provincial districts. At Marma, a military training field north of Stockholm, a young conscript died from the disease, and in the neighborhood of Oerebro, west of the capital, several children are ill, but none fatally thus far.

New Rule On Alfalfa Seed

Ottawa.—Regulations under the Seeds Act have been amended to prohibit the importation into Canada of alfalfa seed or any mixture of seed containing ten per cent. or more alfalfa seed, unless ten per cent. of the seed in each container is colored red. This action has been taken to discourage the importation of Southern grown alfalfa.

Young Orator

Frederick Hotson of Tavistock, Ont., Canada's champion orator who has just reached home after his prize trip, won in the Canadian oratorical contest. He visited Scotland, England, Belgium, Switzerland and France. He will compete on October 14 in the international oratory contest at Washington.

May Not Attend Parley

Uncertain Whether Premier King Will Go To Continental Congress

Ottawa.—Considerable uncertainty exists as to the likelihood of Premier W. L. Mackenzie King accepting an invitation to attend the sesqui-centennial of the sitting of the Continental Congress in York, Pa.

While the prime minister is at present out of the city, it is intimated that on his return he will be busily engaged in preparations for the conference of provincial premiers to be held here early in November. No decision has yet been reached by Hon. William Phillips, United States Minister to Canada, as to whether he will attend the centennial.

Adopt Novel Method

May Use Gramophone To Teach English In Quebec Schools

Quebec, Que.—Utilization of the gramophone as a new practical method of teaching the English language in schools of the province of Quebec is the recommendation that will be placed before the Catholic committee of the council of public instruction by a sub-committee appointed to consider the question.

This new method has been approved recently by several school commissions and after a demonstration given before the members of the sub-committee it was adopted unanimously.

Preparing Customs Report

Ottawa.—Three more weeks will be required to complete the report which the Royal Commission on customs will present to the Governor-in-Council. The three commissioners are hard at work on the report, which will, it is expected, be voluminous.

Have Reached Agreement

Railways Likely To Allow Hon. Robert Forke To Control Foreign Immigration

Ottawa.—Negotiations recently initiated by Hon. Robert Forke, Minister of Immigration, looking to a curtailment of the influx of foreigners to Canada, if and when this is necessary, are achieving their object, it was stated here.

Recently in Montreal, Mr. Forke conferred with President Beatty of the Canadian Pacific Railway in regard to the existing agreement between the department and the railways respecting continental immigration. The Minister had a conference on the same subject with Sir Henry Thornton, president of the Canadian National.

"I think we are now in agreement," stated Mr. Forke after seeing the C.N.R. He indicated that while the arrangement with the railways is not being re-drafted, the new provision, or undertaking is, that the Minister will have the absolute say as to when, in his judgment, the influx of foreigners shall be stopped or curtailed.

"Meanwhile," said Mr. Forke, "I think that what has occurred will serve as a warning sufficient to avoid the necessity of any arbitrary action."

Would Make Britain Dry

Evangeline Booth Convinced That Prohibition Is Possible In England

London.—Commander Evangeline Booth of the Salvation Army, to whom a welcoming reception was given in a big London hall, is convinced that prohibition is a big possibility for England.

"If I were over here and had the help of Lady Astor, we could bring prohibition into England in no time," she is quoted as saying in an interview.

The Commander, who is making her first visit here since 1920, talked strongly on the benefits which she said prohibition had brought to the United States. "I would say to every country, if you want to be rich introduce prohibition and banish drunkenness and inefficiency."

Progress Is Satisfactory

Minister Of Railways Pleased With Work On Bay Line

Calgary.—Hon. C. A. Dunning, Minister of Railways, expressed his satisfaction with the progress of the work on the Hudson Bay Railway in the course of an interview here. The minister stated it was now in operation as far as mile 350 and the bridge over the Limestone River at that point had been completed.

"I expect within the next few weeks the Canadian National will let the contract for the last section of the railway to Churchill," he said.

In reply to a question as to the prospects of Fort Churchill and the length of the shipping season, Mr. Dunning said they must await Mr. Palmer's final report.

WANT CANADIAN CO-OPERATION ON WATERWAY PLAN

Washington.—Co-operation of Premier Mackenzie King's Government of Canada with the United States for the projection of the Great Lakes-St. Lawrence waterway was predicted by W. L. Harding, president of the Great Lakes-St. Lawrence Tidewater Association, after a call upon President Coolidge. He said he had "heard rumors" that the premier intended to head a commission to seek an agreement with the United States and he believed these to be true.

Harding also declared that he saw no prospect of a loss greater than 5,000,000 bushels of grain to United States Great Lakes shippers as a result of the fixing of an eleven cent rate by the Canadian Railways on grain from Winnipeg to Quebec.

Harding, a former governor of Iowa, said that he saw some lagging in the sentiment for Frank O. Lowden, for president, in his state and that in some sections, particularly the eastern part, Secretary Hoover seemed to be gaining ground for the Republican nomination.

Harding believed that the veto of the McNary-Haugen farm relief bill would not play as important a part in Iowa presidential politics as has been generally predicted.

Russia Planning To Buy Montana Horses

Increased Price In Western Canada Too High Is Report

Quebec.—Canada's second consignment of horses to Soviet Russia is now on the high seas, the Russian steamer Dakabrig having left Quebec with 1,100 animals for Leningrad.

Captain Smirnov, in charge of the ship, said before leaving that Russia is looking towards the state of Montana to supply her with horses, due to the action of Western Canadian farmers in raising the price of their animals to \$30 each. Montana and other states are willing to supply the horses at \$12 per head, he said.

The Dakabrig will be back here early in November for her third and last trip of the season.

Names Are Perpetuated

Nungesser and Coll Linked Forever In Canadian Place Names

Ottawa.—Nungesser and Coll, who sought to fly the Atlantic and failed, will live forever in the place names of Canada. The topographical survey department of the interior has issued a new map of the new gold-bearing areas in the vicinity of Woman, Narow and Birch Lakes in northwestern Ontario. On the map, the name Nungesser has been given to a lake and to the river flowing from it into Little Vermilion. The name of Coll, too, has been given to a lake.

As Nungesser and Coll were linked in death, so Lakes Nungesser and Coll are linked by the highway of river and stream.

Predicts Fast Mail

Washington.—Within five years mail from New York will be delivered in London in three days by steamers and aeroplanes, second Assistant Postmaster-General Glover, who has returned from the international mail service conference at Paris, predicted. He said the conference's discussion of trans-Atlantic air mail gave assurance of this service.

Expenditure For Indian Schools

Ottawa.—The amount expended by the Government of Canada on Indian education in the fiscal year 1926 was \$1,918,000. In addition to this certain bands of Indians, whose funds were sufficient to meet the expenditure, contributed \$67,000 for school purposes.

Russia-Poland Pact

Warsaw, Poland.—An agreement on certain points of a pact of non-aggression between Russia and Poland has been reached in recent conversations between Stanislas Patek, Polish minister to Russia, and George Tchitcherlin, Russian foreign minister, the ministry of foreign affairs announced today.

Doctor Made Indian Chief

Another Englishman has left Canada bearing with him the highest title of one of the famous Indian tribes of the Western plains. The title of "Chief Bear Head" was conferred upon Dr. Edward Brown, of the Poultry World, London, England, by Chief Running Antelope of the Sarcee Tribe.

The ceremony took place on the Burns Ranch near Calgary, recently, during the Canadian Pacific western tour of the World Poultry Congress Delegates of which party Dr. Brown was an outstanding member.

The photograph shows Dr. Brown shaking hands with Chief Running Antelope after he was accepted as a member of the Sarcee Tribe.

Church Announcements

EVANGELICAL NOTES.

The Executive Committee of the Evangelical League of Christian Endeavor met on Monday evening last, in a business capacity, to consider ways and means for the enlargement of the League program for the coming term. An entirely new venture was launched in the form of a co-operative plan, which is to encircle all the young people of the local Ev. Church and friends at Didsbury, Westcott and Sunnyslope, and this plan it is hoped, will be backed up whole heartedly by all the older people on the entire field.

Beginning on October 28th a League Rally banquet will be given in the Parsonage with an outside speaker as the honorary guest. The Sunday evening following there will be a big rally service in the church with representatives of both Westcott and Sunnyslope as well as Didsbury taking part in the program. The new staff of officers will also include one or more representatives from each congregation to carry on the work throughout the coming term. This will afford a new and enlarged opportunity of Christian fellowship among the young people of the town and country, plus the religious education and training in Christian service. In the mind of the pastor this is so important that in favor of the young people he volunteers to withdraw his evening preaching service once a month, the last Sunday of each month, to make room for the Christian Endeavorers and to give them the utmost chance to engage their latent powers for good. It is the hope and aim of the pastor with the program committee to characterize each one of these monthly meetings with a distinction all its own, no two meetings are to be alike. Y.M.C.A. or other outside speakers of interest to young and old will be brought in whenever possible. Suitable lantern slides of religious value may be shown occasionally. Further details of the plan will be announced in the churches in due order. Remember it is a co-operative plan and everybody is expected to boost for it and back it up. Now, for a good start on Rally Day, October 30th.

KNOX and WESTCOTT

Last Sunday the Minister spoke of the value of giving visibility and permanence to the church edifice, and said that in his opinion the members and adherents were rather neglecting the work in that direction. He said that he thought the church was in better condition eight years ago than now, which goes to show that very little has been shown in maintenance. The church plays too large a part in community life for it not to be kept up to a high standard. The Sunday school needs more and better room, and there is a demand for quarters for social affairs. Think it over.

There will be no services at Westcott this Sunday as the Minister is holding services at Coburg school.

The subject chosen for Sunday evening at Didsbury is "Salting the Community."

Lone Pine Hall, 3 p.m.—Church services, and if ban is lifted, Sunday school at two p.m. Everybody come. Matters of importance will be dealt with.

Coburg School—Church services at 11 a.m. Sunday, October 9th.

ST. CYPRIAN'S

(Church of England)
Priest-in-charge, Rev. H. Clay,
Box 157, Olds.

First Sunday in the month—Afternoon at 3.00 p.m.
Third Sunday in month—Morning at 11.00 a.m.

School is held every Sunday.

LUTHERAN CHURCH

October 9th—Westcott 10.30 English.
Didsbury 2.30 German.

Not the outer act, but the inner motive prompting it, determines its value. In the eyes of God only such service is acceptable which is prompted by love. These thoughts will be carried out in Sunday's address, "The Spirit of the Law," or "I will have mercy and not sacrifice." Matthew 12:18.

Holy Communion will be celebrated in Westcott.

The meeting of our adherents in Didsbury has been postponed till 3.30 Sunday afternoon.

Use our miscellaneous advt. column. It will pay you.

Didsbury

The development of a new industry from the propagation of muskrats and other water fur-bearing animals, in land and water areas, leased from the Province of Alberta through agreement with the Dominion Government, was indicated by Hon. George Hoadley, Minister of Agriculture, in committee discussion in the Alberta Legislature. The amendment would give the Government power to regulate and license fur and game farms, and to lease the Dominion water and land areas for the propagation of such animals.

A keen competitor to Betsy Wiley, the Nova Scotia world's champion milk and butter producer, has been discovered at Fox River, Cumberland County. Mr. Henry S. Kerr of this place, claims that he owns the champion butter producing cow in her class. This cow is a grade Ayrshire and Durham cow, which has just recently freshened. In one week she produced 392 lbs. of milk, which churned 20 1/4 lbs. of butter, after deducting approximately 12 quarts of milk and 1 1/2 quarts of cream for home consumption. This record is creating keen interest.

The rapid strides made by Prince Edward Island's seed potato business, aggregating 800,000 bushels for the past season, mostly shipped south, formed a subject of discussion at the 51st annual convention of the New Brunswick Farmers' and Dairymen's Association here. It was pointed out that this business has rapidly developed; that ten years back not a single seed potato was sold outside of the province. The remarkable advance in this business was due, it was claimed, to the production of a disease-free potato.

Immigration to Canada in the ten months of the fiscal year ending January 31st, amounted to 118,199, compared with 76,439 for the same period of 1925-6. This is an increase of 55 per cent. January immigration amounted to 4,164, compared with 2,324 for the preceding January, a gain of 79 per cent. Of this immigration 899 were British, 905 from the United States and 2,360 from other countries. During January 2,297 Canadians who had gone to the United States with the intention of remaining permanently returned to Canada, making a total of 50,898 so returned for the ten months of the fiscal year.

Total Assets in excess of \$780,000,000

Didsbury Branch: J. C. CLARKE, Manager

Hydro-Electric Power Agreement

The Agreement between the Town of Didsbury and the Calgary Power Co. a copy of which appears in this issue of the Pioneer, will no doubt be carefully studied by the ratepayers. It is an agreement that has already been presented to many of the smaller towns in Alberta, and that when so presented it has in each case gained the approval of the ratepayers with but very few dissentients. There are, of course, various reasons for this apparent unanimity.

Some towns have no electric plant of their own, and have for years suffered vexatious delays in operation and much inconvenience through breakdowns in their connection with some local company. These towns have taken up the Calgary Power Co.'s project with alacrity, which under the circumstances perhaps is not altogether surprising. Other

towns who in the past have ventured into the realms of municipal ownership have not found their venture as successful as they anticipated, and when given the assurance of a more efficient and economical service have thought it advisable to accept it.

Municipal ownership is a fine thing in theory,—indeed, there is much in it to be commended—but in the case of the smaller towns, at any rate, it has invariably proved a costly undertaking.

Here in Didsbury we have been fortunate in having the services of an efficient and, as we believe, a conscientious engineer, and whilst the plant has shown certain defects yet on the whole the town has been given a fairly satisfactory service.

Conditions, however, these days are changing rapidly and where but comparatively a few years ago the candle and the coal oil lamp were accepted with resignation, the public now demands a hundred per cent. efficiency. Hence, possibly, the success of the

Calgary Power Co.

Didsbury still has debentures amounting to \$12,000 to be liquidated. \$8,000 of this amount will be covered by the sale of the present distribution system, and the balance no doubt will be still further reduced by the sale of the power plant. So far, then, the town has but little cause for complaint.

With regard to the agreement with the Calgary company, it is more than likely that when the ratepayers have thoroughly considered the proposition which it contains it will have their approval.

The agreement has been gone through by the Town Council, clause by clause, amendments made, and since it was first submitted more favourable terms have been secured. As it is left now, we think it will be generally agreed the agreement contains the maximum that can be expected commensurate with the service offered, and the Town Council—the Mayor and Secretary especially—is to be commended for a very satisfactory arrangement.

A gift of peonies presented to Didsbury by the Prince of Wales, and procured and forwarded through the courtesy of the Bank of Montreal, arrived recently, and have been consigned to the care of the local telephone exchange, the surroundings of which will no doubt in due time be beautified and enhanced accordingly.

F. Ridgwell of the Bank of Montreal has been transferred to Calgary, his position here being taken by C. E. Brown, of Calgary.

Harvest thanksgiving service will be held at St. Cyprian's Church (Anglican) on Sunday, November 6th, at three p.m. A cordial invitation to the public is extended.

To the Residents of Town and District.

From Guesswork

to

Scientific Accuracy.

MOST home owners heap abuse on their furnace. To it is attributed high fuel bills, coughs and colds, chilly inside temperatures—

Yet the furnace is seldom to blame. Its inefficiency is usually due to slipshod installation. Properly installed warm air is the most effective heating system obtainable. Yet even the best warm air furnaces become inefficient and wasteful if they are not installed According to Standard Code.

"Code Installed" means that your system is planned by experts according to tried and proven scientific principles. It guarantees the most healthful, efficient and economical heating plant your home can accommodate—raising warm air heating to a plane far and above that of any other type of heating system in the country.

McClary's are the only Canadian members of the National Warm Air Heating and Ventilating Association—a body of leading manufacturers who have adopted a scientific code for installing warm air furnaces. By insisting on a McClary's "Code Installed" Sunshine Furnace you are guaranteed a heating system which costs less to buy and less to maintain than more elaborate yet less effective systems—yet provides 70 degrees of heat in every room.

Ventiblast

McClary's Ventiblast is an exclusive feature of McClary's Sunshine Furnace. It burns soft coal equally as well as hard coal or wood, thus eliminating all fuel worries during possible hard coal shortages.

Fill in and mail attached coupon. We will send name and address of the nearest McClary's dealer who will guarantee a "Code Installed" heating system which will give life-long satisfaction.

Church Announcements

EVANGELICAL NOTES.

Revs. H. E. Roppel, A. E. Hayes, Didsbury, and E. Reimer, Westcott, motored to Calgary together on Monday last, in response to a special call of the Executive Committee of the Alberta Prohibition Association. Rev. W. W. Peck, of Toronto, representing the Prohibition Federation of Canada and Dr. McLachlin, member of the Dominion Executive were present and addressed the meeting. These two men, having just returned from "The World League against Alcoholism" gave much valuable and encouraging information on the prohibition subject.

KNOX and WESTCOTT

During Dr. Campbell Morgan's stay at a certain city, it rained twenty-four out of the twenty-six Sundays and the people called it Campbell Morgan weather. A few times this year a storm has occurred just about the time for, or during the evening service. We'll hope that there will be a good attendance all round. Didsbury Sunday School is holding Rally Day, October 16th at 10.30 and parents and friends are urged to attend. On October 25th, we expect to have a visit from Dr. Laird of Toronto. No one should miss this meeting. It will be a big, worthwhile evening. Westcott 11 a.m. Community Hall 3 p.m. Didsbury 7.30 p.m.

ST. CYPRIAN'S

(Church of England) --
Priest-in-charge, Rev. H. Clay, Box 157, Olds.
First Sunday in the month -- Afternoon at 3.00 p.m.
Third Sunday in month -- Morning at 11.00 a.m.
School is held every Sunday.

Here and There

The total attendance at the Toronto Exhibition this year was 1,570,000, or an increase of 297,000 over 1925.

The Saint John Board of Harbor Commissioners is now busy working on plans for more adequate port facilities and estimating costs of new wharves, grain elevators and everything necessary to handle a larger flow of business.

The establishment of a "Faculty of Fisheries" at Dalhousie University at Halifax is under consideration. If this course is added to the curriculum, it will be the first time in the history of this continent that lectures on fisheries will have been delivered as a college course.

As a latest development of the Canada-West Indies treaty, ice cream is now being shipped from Halifax to British Guiana in liquid form and re-frozen at its destination. On the other hand, ice cream shipped to Bermuda is shipped in blocks and kept solid throughout the journey.

Application has been made to the Vancouver Board of Harbor Commissioners for the right to drill along the shore of Stanley Park and across First Narrows with a view to building a tunnel under the entrance to the harbor. The backers of the project estimate its cost at \$4,000,000.

A saving of forty-eight hours was effected in the transport of trans-Atlantic mail to the city when bundles were taken from the Canadian Pacific "Empress of Australia" at Rimouski and conveyed by plane to Montreal. Experiments are considered to have been successful, and it is understood a future development will extend the flying service to Toronto.

Though the crop season is late, reports received by the transportation department of the Canadian Pacific Railway are most satisfactory, insofar as yield per acre is concerned. From many points in Saskatchewan word comes that wheat threshed out from 25 to 35 bushels per acre, while in Alberta the yield runs from 25 to 45 bushels per acre.

F. W. Swindells, a wealthy Connecticut manufacturer, is developing a model farm at Princeport, on the Midland division of the Dominion Atlantic Railway, twelve miles from here. This farm contains 400 acres under cultivation and 50 acres of woodland, ideally situated on the summit of a hill overlooking the upper part of Cobequid Bay and valleys of exceeding beauty. His Guernsey herd consists of 50 purebred milch cows. His barns are on the Danish dairy plan and are said to be the best in the province.
